### **DETAILED ACTION**

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Applicant should ensure that (1) all reference characters in the drawings are described in the detailed description portion of the specification and (2) all reference characters mentioned in the specification are included in the appropriate drawing Figure(s) as required by 37 CFR 1.84(p)(5).

This application is in condition for allowance except for the following formal matters:

The abstract of the disclosure includes reference characters which are not enclosed within parentheses. Reference characters corresponding to elements recited in the detailed description of the drawings and used in conjunction with the recitation of the same element or group of elements should be enclosed within parentheses so as to avoid confusion with other numbers or characters. See MPEP § 608.01(b).

The substitute specification filed December 01, 2008 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: the substitute specification fails to include markings showing all the changes relative to the immediate prior version of the specification of record along with an accompanying clean version (without markings).

The prosecution of this case is closed except for consideration of the above matter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
